If the food you are at your last meal did not digest, but laid for a long time like lead on your stomach, then you have indigestion and quick action should be taken.

Of course there are many other symptoms of indigestion, such as helching up of sour food, heartburn, dizzlness, shortness of breath and foul breath, and if you have any of them, your stomach is out of order and should be corrected.

Mi-o-na Tablets have cured thousands of cases of indigestion and stomach trouble. If you have any stomach distress, Mi-o-na will relieve instantly.

But MI-o-na unlike most so-called dyspepsia remedies, does more than relieve; it permanently cures dyspepsia or any stomach trouble by putting energy and strength into the walls of the stomach, where the gastric julcas are produced.
